

The easy alternative to a counterbalance height adjustable system!

# DisplayShift<sup>2</sup> Wings 55-78

Kindermann's DisplayShift<sup>2</sup>-series includes four models of mechanically height-adjustable display mounts: Three classic and an education model equipped with whiteboard wings, which has been designed for use in classrooms.

The DisplayShift<sup>2</sup> Wings is a wall-mounted, mechanically height-adjustable display mount with whiteboard wings. It fits best with interactive touch screens with a size of 86" (218 cm screen diagonal) and a weight of 55 – 78 kg.

The whiteboard wings can be printed individually.

## Special features

The Kindermann DisplayShift<sup>2</sup> Wings was developed with the support of our education experts and is thus ideally tailored for classrooms.

Successful endurance tests with over 50,000 cycles as well as a corresponding TÜV-certification according to DIN EN 14434: „Tafelnorm“ and EK 5/AK 3 15-01:2023 test principle for the security of digital whiteboard systems guarantee the highest safety standards.

Quick and easy installation, long term use without maintenance and power-free application saves you money.

The height of the DisplayShift<sup>2</sup> Wings can be adjusted manually in no time, thus offering users of all sizes an optimal, ergonomic working environment for using interactive touch displays.

DisplayShift<sup>2</sup> means short delivery times, 5-year warranty with advance replacement and 10-year spare parts availability.
