

Kindermann DisplayLift

NEW!

Electrical height adjustment for interactive displays up to 86 inches

Ideal for interactive applications, the Kindermann DisplayLift with electrical height adjustment creates better accessibility to technology in boardrooms and classrooms.

- Easy and time-saving installation due to preassembled components
- The up/down switch can be mounted both on the left or right side of the display
- The display center can be adjusted between 142.5 cm and 192.5 cm in height
- Integrated cable management prevents the clamping of the supply cables
- VESA mount included

Quality made in Germany
by Kindermann
