

## WPNET4KV

### DIGITAL CONTROLS AND PANELS

*EclerNet wall panel control*

### PRODUCT OVERVIEW

WPNET4KV is an EclerNet compatible wall panel, featuring an LCD screen, a digital rotary encoder and 4 direct selection keys. Its end-user control features are volume control, source and preset selection functions. Equipped with Ethernet interface and compatible with PoE (Power over Ethernet) or local power supply (optional).

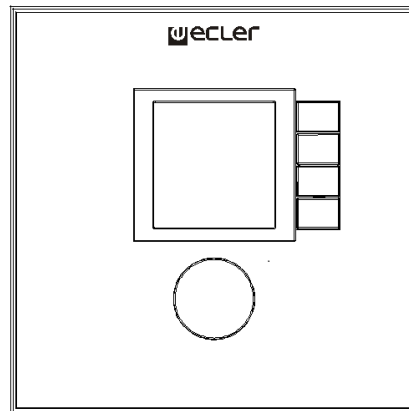

### KEY FEATURES

- Remote control panel of EclerNet devices
- PoE power or by local power supply (WP-PSU model, optional)
- Ethernet communication interface

### APPLICATIONS

- End user control in centralized, distributed or hybrid fixed installations over long distances
- Integrated digital audio and control solutions using Ethernet networks
- BGM & Paging solutions
- Retail, education, corporate, fitness and Horeca

## TECHNICAL DATA

**DIGITAL CHARACTERISTICS**

<b>Control keys</b>	Encoder, 4 Control keys
<b>Indicators</b>	LCD Display – 128x128 pixels
<b>Communication Standard</b>	Ethernet

**SUPPLY CHARACTERISTICS**

<b>PoE Power Supply</b>	PoE: class 0 802.3af PoE PD compliant	
<b>External Power supply</b>	12 - 24VDC	
<b>Maximum Power Consumption</b>	From PoE:	35mA / 1.6W
	From Ext Power:	1.5W (WP24-PSU power supply model, not included)

**MISCELLANEOUS**

<b>Connector</b>	RJ45 Remote port
<b>Dimensions</b>	WxDxH 86mm x 30mm x 86mm / 3.38" x 1.18" x 3.38"
<b>Weight</b>	120g / 0.26 lb
<b>Cable Quality</b>	CAT-5e or better
